

# Made in Australia for Australian conditions by bloody Australians

Just because you buy your LVL from an Australian-based company, you can't assume that it has been made in Australia from Australian timber.

Wesbeam is **Australia's only home-grown manufacturer and supplier of LVL and LVL I-joists**. We are the only LVL supplier that can trace the timber it uses back to an Australian, sustainably managed, which means that we're in control of the whole process. From sourcing the sustainable forest timber through to the manufacture, design support, and Australia wide distribution, **we know its Australian**.

We source all of our timber from forests in Australia, where forestry management standards are some of the world's best. This means that all Wesbeam LVL and LVL I-Joist products come with full Australian Forestry Standard (AFS) Chain of Custody Certification and conforms with the requirements of AS/NZS 4357 Structural LVL.

**The only Australian LVL and LVL I-Joist manufacturer. Engineered in Australia to be longer and stronger.**
