

Made in Australia for Australian conditions by Australians

Just because you buy your LVL and I-joists from an Australian-based company, you can't assume that it has been made in Australia from Australian timber.

Wesbeam is **Australia's only home-grown manufacturer and supplier of LVL and LVL I-joists**. We are the only LVL supplier that can trace the timber it uses which means that we're in control of the whole process.

From sourcing the sustainable forest timber through to the manufacture, design support, and Australia wide distribution, **we know its Australian**.

This means that all Wesbeam LVL and LVL I-Joist products come with full Australian Forestry Standard (AFS) **Chain of Custody** Certification and conforms with the requirements of **AS/NZS 4357 Structural LVL**.

The only Australian LVL and LVL I-Joist manufacturer. Engineered in Australia to be longer and stronger.
